

WELCOME TO NMPCP'S HEALTH PROMOTION SECTION!

In this section you will find information about work completed in the Health Promotion area and information about our three health promotion priority working parties which include:

- Physical Activity & Active Communities
- Minimising Harm from Alcohol & other drugs
- Mental Health & Wellbeing

Relevant Documents to these groups as well as minutes, agendas, terms of reference and reports will sit in this area.

As outlined in NMPCP's Strategic Plan, these Working Parties have been created through the collaboration of local Health Service Providers to improve the overall health and wellbeing of community members in the Northern Mallee.

"To work together & build the capacity of the community to increase physical activity, healthy minds, chronic disease management & minimise the effects of alcohol and other drugs for improved quality of life."

For further information or enquiries into the NMPCP Health Promotion plans, contact Rebecca Koren on 50217604 or via email: rkoren@schs.com.au
